Dear Colleagues,

Development, interaction, and science! We developed the idea for the 28th National Conference of Clinical Hematology and Transfusion Medicine based on these principles.

Together with you, we are confident that we will organize a historic, interactive scientific conference, and the knowledge we will discuss over the course of the five days will advance our medical education and have a significant influence on the treatment of patients with hematological disorders.

The National Conference of Clinical Hematology and Transfusion Medicine is the yearly scientific conference that has been held in Romania for the hematology and transfusion medicine communities.

We developed a program focusing on subjects of interest with a focus on uncommon hematological illnesses in collaboration with the scientific committee.

One of the main goals of the 2022 edition is to place Romanian hematology in an international perspective. This year, we welcomed foreign opinion leaders in hematology to Romania, and we are incredibly grateful that they accepted our request.

As a result, together with the speakers from Romania and other countries, as well as with you, the attendees of the **28th National Conference of Clinical Hematology and Transfusion Medicine**, we are confident that we will contribute to the history of scientific developments in hematology and transfusion medicine in Romania.

Each of us individually and collectively contributes to the advancement of Romanian hematology and transfusion medicine through science and experience sharing.

Through such CME activities, we may stay current with the most recent knowledge in our areas of interest, which is important for the health of our patients.

Speaking on behalf of the **28th National Conference on Clinical Hematology and Transfusion Medicine's** Scientific Committee.

With friendship and special consideration,

Prof. Dr. Daniel Coriu,

President of the Romanian Society of Hematology

President of the College of Doctors from Romania

PROGRAM – TRANSFUSIONAL MEDICINE

FRIDAY - OCTOBER 7th, 2022

CONFERENCE ROOM C

Scientific Communication Session

Scientific communications “From the objective to provide quality blood components to real-world challenges”

09:00-11:00

CHAIRMANS - DOINA GOȘA, ADRIANA TURCULEANU

09:00-09:15

BBTC – strategy for promoting blood donation and actions to inform the population with the purpose of increasing the number of donors

Camelia Ruxandu, Doina Goșa, Popa Marilena - Center for Blood Transfusions Bucharest

09:15-09:20

Discussions

09:20-09:35

Blood donor – from intention to donate to loyal donor profile

Gabriela Oprea, Florentina Vlădăreanu, Victoria Irimia – National Institute for Blood Transfusions ”Prof. Dr. C.T. Nicolau”

09:35-09:40

Discussions

09:40-09:55

The effectiveness of the mobile blood collection drives organized by CTSMB and concrete actions for increasing performance

Camelia Ruxandu, Popa Marilena, Irina Răchită - Center for Blood Transfusions Bucharest

09:55-10:00

Discussions

10:00-10:15

The management of potential donors with a history of viral hepatitis 0 the BTC Constanta experience

Alina Dobrota - Center for Blood Transfusions Constanta

10:15-10:20

Discussions

10:20- 10:35

Covering the need for blood between challenge and achievement

Laura Păcurariu1, Cristina Bichiș2 - 1 Center for Blood Transfusions Arad, 2 Center for Blood Transfusions Hunedoara

| | |
